## 2025

# About Us

RevComm Inc. is one of Japan's fastest-growing startups. In 2021, we expanded to Southeast Asia by establishing PT RevComm APAC Indonesia in Jakarta. Our mission is to redefine communication and build a society where people respect and understand each other.

Since 2017, RevComm has focused on the intersection of AI, Voice, and Cloud Technology. From this, we created MiiTel—an AI-powered

phone system that helps improve team performance, increase sales conversions, and reduce training costs.

We believe that True Communication builds stronger connections. It's not just about sharing information, but also understanding emotions and perspectives. Through our technology, we aim to create a more empathetic and connected society.

**2017**

Founded in Japan  
in 7.7.2017

**2021**

Launched in  
Indonesia

**2022**

Launched in  
the US

RevComm is currently available in Japan and Indonesia,  
driving innovation in communication across Asia.

With strong roots in Tokyo and a growing presence in Jakarta,  
we're committed to empowering teams through AI-powered  
voice technology—wherever meaningful conversations happen.

# Why Us?

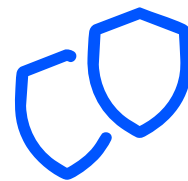

RevComm delivers more than just communication tools—it offers a smarter, AI-powered approach to voice technology. With MiiTel, teams gain access to advanced features like call analytics, transcription, and real-time feedback that help improve productivity, boost sales performance, and reduce training costs.

Security is also at our core. MiiTel is ISO27001, Privacy Mark , and GDPR Certified ensuring that user data is protected with top-tier safeguards. Built to support the future of work, MiiTel fits seamlessly into remote, hybrid, and in-office environments.

With a strong presence in Japan and Indonesia, and backed by one of Japan's fastest-growing startups, RevComm is committed to redefining communication—not just through innovation, but through our mission to build a more empathetic and connected society.

**AI-Powered  
Communication**
